Burglary Index	105
Larceny Index	93
Motor Vehicle Theft Index	51

Crime Indexes

Data Note: The Crime Index data represents a series of standardized indexes based on a national average of 100. A Crime index of 120 indicates that the propensity for a crime in the trade area is 20 percent above the national average. Aggregate indexes for personal, property, and total crime are unweighted indexes, in that a murder is weighted no more heavily than a purse snatching in the computation.
